

C/S HELIX™ Z1 AND HELIX™ Z2

C/S Helix™ is available in two design options. Helix Z1 is a 100% rubber/vinyl tile, which will scrape off dirt, mud and initial moisture. Helix Z2 incorporates carpet strips into the tile, which will absorb dirt and moisture immediately inside the building.

C/S Helix™ is designed to collect maximum dirt and water and, when used in combination with Zone 3 Clean-Off Carpet, can collect up to 98% of dirt.

Rochdale Exchange, Rochdale

Features (Helix Z1 and Helix Z2)

- 305mm x 229mm interlocking tiles
- Recess or surface mounted options
- Tested to withstand 250kgs/wheel rolling load – twice that of similar products
- Tiles are made from recyclable UV resistant PVC/NBR compound which is dimensionally stable and will not shrink or gap
- Hidden interlocking connectors provide a seamless appearance
- Rolls up for easy matwell cleaning
- Tile format with snap lock connectors for easy installation and replacement
- Easy to cut tiles for irregular shaped installations
- Integral surface abraders provide excellent scraping action and a multi-directional walking surface
- Resistant to bacterial growth and most common chemicals

Helix Z2 only

- Excellent moisture and dirt removal/containment in conjunction with interior grade textile
- Four standard carpet insert colours, non-standard colours available (see p23)
