C/S Pedisystems®
Entrance Flooring Systems

MAKING AN ENTRANCE WITH C/S PEDISYSTEMS

A statement entrance mat sets the scene for your shopping centre, and Pedisystems products look good and provide excellent durability and performance.

Choose from a range of different matwell depths, colours and materials, to suit all budgets for new and refurbishment projects.

C/S Pediluxe @ Princes Mead S.C.

WHAT OUR CUSTOMERS SAY

'Tracked in water was a major problem at the Centre so when it came to changing the entrance mats we opted for C/S Pediluxe as I have always found the Pediluxe performance, and Construction Specialties service, to be excellent.'

David Pickett, Centre Director
Princes Mead Shopping Centre, Farnborough

'One of the things that impressed me about Pedisystems was the versatile range of products catering for different traffic levels and different budget requirements. We have used C/S entrance matting at the Centre since 1996 and we are pleased with the performance in all weathers.'

Lorenzo J O'Reilly, Centre Manager
Rochdale Exchange Shopping Centre, Rochdale

C/S Pediluxe @ The Mall Shopping Centre, Blackburn

CASE STUDY

The Mall Shopping Centre, Blackburn

The recent refurbishment and extension project at The Mall Shopping Centre in Blackburn was finished with Construction Specialties' (C/S) Pedisystems Entrance Matting to provide a durable and safe flooring finish for the thousands of daily visitors. C/S Pedisystems entrance mats had previously been installed at the centre to great success, so when it came to renewing the entrance mats the choice was obvious.

To cope with the high footfall at the centre C/S recommended the C/S Pediluxe entrance mats for their high dirt containment, moisture absorption, and an exceptional rolling load capability of up to 500kgs/wheel.

In total, nine C/S Pediluxe entrance mats covering 150m² were installed throughout the centre, protecting shoppers from the risk of slips on wet floors and prolonging the life of the interior floor finish.

The installation was handled by C/S' in house installation division Conspec Contracts.
