

# C/S WALLGLAZE IS TOP OF THE CLASS AT ST MARY'S SCHOOL, SHAFTESBURY

## Project Overview

C/S Wallglaze Performance Coatings were specified by Mitchell Harvey Partnership for a new indoor swimming pool at St Mary's School for Girls in Shaftesbury.

C/S Wallshield coating system in Jade White was applied to the walls and ceilings in the swimming pool area. Walls in the changing rooms, shower areas and toilets were painted White; creating a clean, crisp, and hygienic environment.

C/S Wallshield is one of the products from the C/S Wallglaze range of performance coatings. This two-pack, solventless polyurethane system has been designed for use in periodically 'wet' environments, where high durability and hygiene are primary concerns. The system is available in Gloss or Eggshell finishes and in a full range of C/S Wallglaze colours.
