

ACROVYN® HYDROCLAD

Acrovyn® Hydroclad smooth sheet provides an impervious hygienic and impact resistant surface for internal walls. It is particularly suitable for hygienically sensitive areas - such as food processing and preparation areas, laboratories and medical facilities - which require a smooth, seamless and easy to clean surface. Acrovyn® Hydroclad is easy to install, with several jointing options to suit all technical requirements.

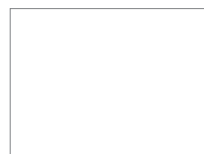

FEATURES

- Smooth, impervious and non-porous
- 2mm thickness
- Harbours no germs, fungi or bacteria
- High impact resistance
- Resistant to chemicals, acids, alkalis, grease etc.
- Easy to clean surface, which conforms to EU food hygiene requirements
- Can be thermoformed for corners and reveals
- Jointing options (available in all standard Hydroclad colours):
 - mastics
 - trim sections
 - vinyl welding
- Suitable for use in environments where maximum service temperature required does not exceed 60°C

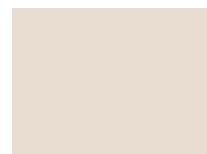

BENEFITS

- Easy to clean and maintain
- Avoids health risks associated with cracked tiles and unsightly grout
- Enhances appearance
- Reduces maintenance costs
